CHALK TALK:

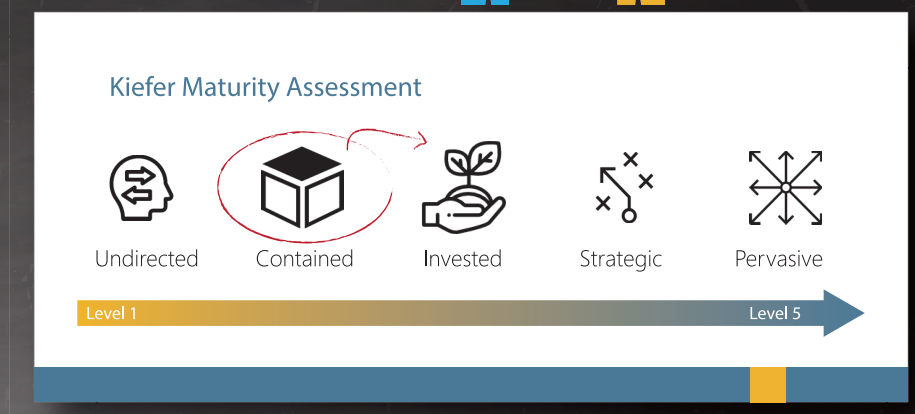
How organizations leverage the Kiefer Digital Transformation Maturity Assessment

1. Work with Kiefer to outline your digital transformation goals.

Tell us about the critical processes that you'd like to improve or automate.

2. Kiefer will help you understand where you are on the maturity roadmap.

Let us show you where you are as it relates to maturity. We use organizational characteristics and common challenges to determine maturity level.



7 different maturity assessments are available

3. Kiefer will help you determine the appropriate strategy to improve your maturity position.

We use our proven methodology to determine where you are on the maturity model and what it will take to improve your position.

4. Work with Kiefer to create a roadmap that helps you execute on the transformation strategy.

We provide guidance and can support your organization as a "digital advisor", offering strategies and best practices for a successful digital transformation.

DID YOU KNOW

Kiefer has worked with clients to help them execute on their digital transformation vision.

Here are a few of our most requested maturity assessments;

- Modern Workplace: Intelligent Workflow Automation
- Modern Workplace: Modern Integrated Communication Platform
- Modern Workplace: Collaboration Portals and Team Sites
- Modern Workplace: Modern Intranet
- Modern Workplace: Communication Platforms
- Data Analytics and Data Visualization
- Program & Project Control for Construction Management

We are happy to share our maturity assessments with you. All you have to do is ask! Once you determine your organization's maturity level, Kiefer can help you validate your assessment and offer advice that can help your organization overcome barriers, objections and make strides to increase your maturity level.
