

# What is Microsoft Viva?

Introducing Microsoft's Employee Engagement Platform

## Bring People and Teams Together With Microsoft Viva

Workplace communication platforms have become indispensable as the world shifted to hybrid work. Millions of users began using Microsoft Teams. Now, organizations are focused on digital employee experiences.

As your organization leverages Microsoft Teams a central hub for work, Viva helps employees stay engaged, find knowledge, learn, and work.

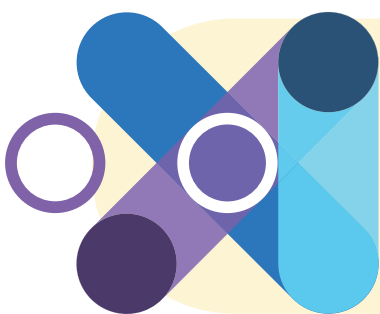

### VIVA CONNECTIONS

Viva Connections is a framework which can be used to deliver your intranet within Microsoft Teams. Effectively this becomes the "Home App" in Teams. Keep employee informed, engaged, connected, and inspired.

### VIVA LEARNING

Viva Learning empowers people to better themselves with training—naturally, without disruption, and in the flow of work. Viva Learning encourages a culture of growth that helps people reach their potential.

### VIVA TOPICS

Viva Topics helps people put knowledge to work, using AI to surface expertise in the apps they use every day. Viva Topics automatically aggregates knowledge and expertise across apps and teams using built-in security and compliance features.

### VIVA INSIGHTS

Encourage the balance of work and personal wellbeing while build organizational resilience. Viva Insights delivers insights and actions in the apps people use every day.

## COMING SOON

**VIVA GOALS** is a goal-setting and management solution that aligns teams to your organization's strategic priorities. Viva Goals enables individuals and companies to organize and track their goals through "Objectives and Key Results" (OKRs).

**VIVA ENGAGE** is a social-community app with its roots in the Communities app for Teams.

Kiefer Consulting can help your organization in leveraging your investment in Microsoft 365.
